

CHAPTER I

GOVERNMENT AGRICULTURAL DEPOTS

1. The Audit of the accounts of the Agricultural Depots relating to Government stocks except those which are maintained on Proforma basis (Paddy and millets) was entrusted to the Chief Auditor, State Trading Schemes, Madras in G.O. Ms. No. 365, Food and Agriculture Department, dated 8th February 1964. The accounts relating to the scheme for distribution of Pesticides and other miscellaneous items were taken up from the year 1962-63 onwards. The audit of all the transactions of the Agricultural Depots including the Paddy and Millets Schemes was entrusted to the Chief Auditor (STS) in G.O. Ms. No. 686 (Agriculture), Dated 17th March 1973 from the year 1972-73 onwards, while the audit of the transactions relating to the Seed Multiplication scheme was taken up from the year 1972-73. The audit of the agricultural depots in certain Municipal Towns was also taken up by this Department from the year 1972-73 (Rc.No. 4461/A1/73, dated 26th November 1973 of Chief Auditor, State Trading Schemes). The Department of the State Trading Schemes was rechristened as Internal Audit and Statutory Boards Audit Ms. No. 598, Finance (LF) dated 3.8.1992 and the audit of agricultural depots was entrusted to this department by the above G.O.

2. Scope of Audit

The detailed audit of the accounts relating to paddy, millets and green manure seeds besides distribution of plant protection chemicals and other miscellaneous items at the Agricultural Depots, is undertaken by the department. The main object of audit is to ensure that all the stocks purchased or received by transfer are brought into account properly, that they are sold at the rates fixed by the competent authority, that the sale proceeds are promptly remitted into the Treasury in the Government account, that the issues of stocks by transfer are supported by proper authority and acknowledgements therefore are forthcoming, that the stocks are periodically verified by the various officers authorized for the purpose, and that the value of the difference, if any, noticed between the book balances and the actuals during such verification is regularized either by recovery from the persons at fault or written off with competent sanction. It should be seen that the financial powers exercised by the respective Agricultural officers do not exceed the limits prescribed in G.O. Ms. No. 3740, Agriculture Department, dated 26th December 1968 and subsequent amendments.

The audit also includes the check of pay bills and T.A. bills of the staff. A cent percent check has to be exercised in respect of audit of pay bills and T.A. bills in the Agricultural Depots (circular D, Dis. 993/A3/72 dated 7th March 1972 of the C.A.(STS). The salaries for all the staffs of agricultural depots were disbursed in the office of the Joint Director of Agriculture, till 30.9.2013. From 1.10.2013, the salaries were issued for the staffs in the respective office of the Assistant Director of Agriculture.

3. The following records and registers are maintained in the Agricultural Depots.

1. All the money value forms and their stock registers
2. Bill books
3. Cash books
4. Treasury remittance challans and the receipts for the amounts paid for purchase.
5. Monthly treasury reconciliation statements
6. Stock Register

7. Stock Transfer Bills - in coming
8. Stock Transfer Bills - outgoing
9. Sale prize fixation file
10. File for procurement
11. Copies of purchase invoices
12. Field -run (Seeds) register
13. Seed Purification register
14. Register of Invoices
15. Register of Germination
16. Contingent expenditure register and MTC 70 register
17. Subsidy Register
18. Adjustment bills and the related registers
19. Registers for the results of testing
20. Temporary Dead Stock Register
21. Register of packing materials
22. Physical verification register
23. Register of shortages
24. Register of free issues for demonstration purposes
25. Register of trials conducted
26. Register of samples sent for analysis
27. Register of condemned articles
28. Register of write off
29. Register of auctioned items
30. Register of advance collections
31. Proforma Invoice Register
32. Bank passbook and the related cashbook for the account maintained in the name of Assistant Director of Agriculture.
33. Acknowledgement register for all kinds of receipts
34. Contingent Bills
35. Files for training given to farmers
36. Register of recoveries
37. Office copies of Pay bills
38. Service Register
39. Office copies of TA bills
40. UDP register
41. Register of liabilities
42. List of bills cashed

Note: The number of pages in the cash, book stock registers and other registers should be authenticated (circular. B 103799/71, dated 24th January, 1971 of the Director of Agriculture.)

4. An intimation should be sent to the Assistant Director of Agriculture sufficiently in advance informing him of the date on which the audit is proposed to be taken up, so that all records of his office relating to the period covered by audit may be kept ready for production to audit.

5. (1) Before the audit for a year is commenced the Auditor should call for a list of registers and accounts maintained in the depot. The files containing the orders of Government and the circulars issued by the Director of Agriculture and Joint Director of Agriculture of the district concerned, relating to the transactions should also be called for and studied so that the Auditor may acquaint himself with up-to-date information about the transactions. The duties, powers and functions of the officers of the Agricultural Department are enumerated in the Agricultural Department Manual.

(2). The names of the Assistant Director of Agriculture and Depot Managers should be noted in the Audit Report after the opening paragraph for the purpose of reference in fixing the responsibility in cases of shortages, losses, etc.

(Circular No. 11915, A1/72, dated 27th December 1972 of the Chief Auditor, STS)

6. Items to be verified during the audit of Agriculture Depots

I. Receipts Audit

1. All the bill books which were issued as per the bill books stock register should be called for the audit.
2. It should be verified that whether the amounts collected through the receipt bills were brought forward to the cash book.
3. The total of the daily collections should be verified in the Cash book.
4. Daily collection and remittance abstracts should be verified.
5. Treasury remittance challans should be verified along with the monthly treasury reconciliations duly certified by the Joint Director of Agriculture.

II. Audit of Stock Register:

1. The seeds and other items sold as per the bill books should be traced in the stock Register and all the deductions should be verified.
2. Page wise closing balance of stocks should be traced to the opening balance carried over to the subsequent pages.
3. All the incoming and outgoing of stocks should be verified with store transfer bills and page wise arithmetical verification should be done
4. It should be verified whether the items were sold in accordance with the price details mentioned in the store transfer bills.(Sale price should include transport Charges)
5. For some of the seeds, Sale prices are often determined by the Joint Director of Agriculture. The price of oil seeds should be in accordance with Local Market rate. The existing departmental orders should be studied thoroughly before taking up the audit.

III. Procurement and Purchase audit :

1. All the Procurement and purchase bills should be summoned.
2. All the procurements and purchases should be made only from the authorized Co-Operative societies and the firms approved by the Joint Director / Director of Agriculture.
3. Purchase and procurement rates should be determined by competent authorities from agriculture department.

4. As far as the payments for the procurement of seeds are concerned, only 80% of the amount should be given to the supplier of seeds do the first instalment. Only after getting the seed testing certificate about the virility of the seeds, the rest of the amount should be disbursed.

5. If the seeds were tested negative in the germination tests, the amount paid to the seller should be recovered back in full.

6. Transport charges which were given to the failed seeds should be recovered.

7. Objections should be raised for the transport charges made for the stocks transferred from the main depot to sub depots and returned back without being sold.

IV. Subsidies audit

1. The Government orders and the Agriculture Department circulars should be verified about the subsidies which were in operation for the audit year. It should be seen that whether the ear-marked allotment of the subsidy amount, was properly used.

2. The seeds and other items for which the subsidy amount is pre - adjusted before the sales, should be sold by the subsidy year. These subsidy pre - adjusted seeds should not be sold in subsidized rates in the next year.

3. It should be seen in the audit that whether any excess or short amount of the subsidy given is adjusted.

4. Subsidies should be given only when the application is well supported by the recommendations from the field officers.

5. It should be seen whether all the subsidy sale were entered properly in subsidies register.

6. All pre and post adjustments should be checked along with the adjustment bills, subsidies register and stock book.

V. Audit of other Registers :

1. Advances given and the amounts recovered, should be audited in Advances Register.

2. Undisbursed Payment register for the audit year should be audited thoroughly.

3. Tools and Plants register should be verified and audited.

4. Register of Money Value Forms should be audited.

5. Shortages Register should be audited till date.

6. Seed form register should be compared and verified with procurements.

7. Germination register should be audited, and the seeds sold were to be frequently tested for germination.

8. Temporary Dead stock register should be verified.

9. Cash balance should be verified during the course of audit.

VI. Establishment Audit

The Service Registers of all the employees of the agricultural depots were maintained in the district office of Joint Director of Agriculture. The pay was given to them by the Joint Director office from 1.1.2008 to 30.9.2013. From then on, the pay is drawn and disbursed by the Assistant Director of Agriculture of the region.

1. It should be seen whether the pay bill is prepared only for the posts sanctioned and to the actual strength.

2. The audit checks should be made in the audit of service registers for pay fixation, Senior - Junior anomalies, leave account, service verification, etc.

3. 100% check should be carried out in the pay bills for any selected two months, for an audit year.

4. Pay arrears should be audited completely.

VII. General

1. If the stock transfers and transport bills are abnormally frequent, their veracity should be proved into.
2. Quarterly Bi- annual and year -end physical verification details should be checked. it should be seen that whether the shortages were brought on to the shortage register.
3. If proforma account was prepared earlier and produced during audit, it should be audited along with regular audit, It proforma account is not prepared it should be objected.
4. Annual inspection reports made by the agriculture department should be called for to cross verify with audit findings.

VIII. Frequently raised audit objections

1. Store transfer bills (incoming) not produced.
2. Acknowledgements for store transfer bills not produced.
3. Subsidy amount adjusted in Govt. accounts for a lesser / higher amount than the actual amount given to formers.
4. Unsold seeds and other items which were pre adjusted for subsidy, sold in the next year.
5. Acknowledgements wanting in free issue of seeds.
6. Seeds failed in germination tests sold to formers.
7. Expired plant protection chemicals sold to formers.
8. Expired seeds and chemicals remaining in stock, unsold.
9. Acknowledgements wanting for the seeds sent for germination tests; and the test results not produced.
10. Acknowledgements wanting for the plant protection chemicals sent for testing, and the test results and produced.
11. Expired seeds sold for lesser rate to civil supplies corporation - Loss to be objected.
12. Accounts not reconciled with treasury.
13. Store Transfer Bills abstract not shown.
14. Proforma account not prepared and produced for audit.
15. Damaged and unused items not auctioned.
16. Not maintaining records.
17. Cancelled cash and adjustment bills not certified by ADA.
18. Sales amount not brought into cash book receipts.
19. Delayed remittance of sales amount - Temporary misappropriation.
20. Sales amount not remitted in to Govt. account Loss.
21. The loss mentioned in the shortage Register not recovered - To be remitted in to Govt. account.
22. Excess amount paid for procurement of seeds.
23. Establishment - pay claimed for the unapproved posts.
24. Establishment - Wrong pay fixation - Excess amount to be recovered.
25. Transport charges - unnecessary transactions of items - Not admissible.
26. Gunny bags not auctioned.
27. Service Registers not shown.
28. Total mistakes in stock and cash registers resulting in losses.
29. Closing balance not carried forward / or shortages in carrying forward as opening balances in cash and stock registers.

IX. Audit checks for proforma Account :

(Chief Auditor letter no. 1025/ D4/95 Dated. 7.3.1997)

1. Separate proforma accounts should be prepared for each scheme.

2. If any wrong calculations, wrong entries were found, they should not be struck down and corrected in the proforma account. They should be mentioned in the audit notes. Revised proforma account should be prepared on the basis of audit objections.

3. Since it should be noted in audit report that whether the Agricultural Depot was run in profit or loss, the opening and closing balances, procurement, sales, stock transfers, price fixation details should be audited. Following audit checks to be carried out:

i. The Quantity and the value of the seeds procured should be verified in the stock register.

ii. It should be checked whether the seeds were procured from the approved seed farms.

iii. The Details of area of the seed village, cultivation area, the seeds supplied, fertilizers and plant protection chemicals should be audited.

iv. It should be seen whether the seeds procured were certified by the testing laboratory.

v. Only the seeds with more than 87% of germination results should be approved

vi. The amounts given to the farmers who supplied the seeds which were failed in germination tests, should be recovered along with other incentive given.

vii. Sale price files should be checked thoroughly. The sale price should be determined by including the transport charges and loading, unloading wages.

4. Proforma account should be submitted along with the consolidated stock details, abstract of store transfers duly certified by Assistant Director of Agriculture.

5. One copy of audited proforma account should be enclosed with the audit report of the concerned year and a copy to be sent to the JDA and two copies a ADA.

6. A watch register should be maintained in the office of the Assistant Director / Inspector.

X. SEVERAL MODES OF DEFALCATION IN AGRI DEPOTS AND METHODS FOR DETECTING THEM IN AUDIT.

1. Cash receipts not remitted to Govt. Account.

Besides the verification of cash receipts, the auditors should verify original challans and should ensure that the remittances have been agreed with the Treasury figures for each month and the remittances find place in the reconciled statements.

2. Receipts not accounted for in the Cash Book

The defalcation can be found only in audit while tracing the bills in the Cash Book. There may be instances where even the counterfoils of receipts are removed from the bill books. This mode of defalcation should be detected in audit by carefully verifying whether all the cash bills are chronologically accounted for in the Cash book.

3. Furnishing bogus challans in token of Remittances

If the challans are intentionally not produced for audit, the auditors should verify the relevant records at the sub-treasury or district treasury and satisfy themselves as to the genuineness of remittances.

4. Short totaling of Daily Totals in Cash book.

Auditor should do Cent Percent check of the Totals.

5. Short Remittances

The defalcation can be found out in audit by carefully comparing the receipts side and payments side in the Cash Book.

6. Cash collected over and above loan amounts not accounted for.

This defalcation can be detected in audit by carefully tracing the receipts in the Cash Book.

7. Shortage of Cash Balance.

While verifying the Cash Balance, sometimes, shortages of Cash Balance is noticed. The matter should be brought to the Special Notice of the A.D. of Agriculture, at once.

8. Cancelled bills

Sometimes the bills are cancelled and the duplicate and triplicate copies are available for verification. In such cases, the original bills should be insisted on in audit and if they are not still produced a special investigation in the matter should be called for.

9. Short accounting or not accounting of stocks purchased through the accepted firms for which payments are made by the District Agriculture Officers.

The purchase vouchers should be called for and verify them with the quantities accounted for in the main stock registers of the Agricultural Depot.

10. Short accounting of Stocks through Store Transfer bills from other depots under the jurisdiction of the same District Agricultural Officer or from other districts.

According to the instructions issued from the Head Office, the auditors are expected to prepare two statements for transfers and cross verify them by sending the extracts to the Assistant Directors / Inspectors of the relevant units. This gives an opportunity to independently verify the correctness of the inter-transfers from one depot to another outside the jurisdiction of the District Agriculture Officer.

11. Non-segregation of items intended for sale and for free issues.

The auditor should verify in all cases of free issue the authority for such free issues and credits and debits to the relevant heads are correct.

12. Unauthorized deduction of Stocks

(i) The Unauthorized deductions made through fictitious Store Transfer bills could be found out by insisting on proper acknowledgements and cross verification of the transfers between the depots.

(ii) The auditor should cross check all the incoming and outgoing Store Transfer bills in respect of all agricultural depots within the control of the District Agricultural Officer and list out all items that are not accounted for and pursue them.

(iii) The Inspector should send part-II statement of outgoing Store Transfer bills to his counterparts in other units for confirmation of the transfers.

13. Excess deduction of Stocks.

This can be detected by tracing the quantities deducted in stock account with those sold out or issued as noted in the bills books / Store Transfer bills.

14. Double deduction of Stock

The stocks are deducted twice in the stock registers by quoting the same bills. This can be detected by carefully tracing the issues with reference to the sales and Store Transfer bills.

15. Striking off incorrect balance in the stock account

The progressive closing balances are sometimes wrongly struck to screen the shortages in stocks. This can be found out in audit by totaling the vertical columns of receipts and issues in each page and arriving at the closing balance with reference to the opening entry at the top of the page in the Stock Register instead of taking of the balance struck by the Depot clerks.

16. Commenting upon collection higher rate from ryots.

The depot clerks may adopt a higher rate for a particular item and collect from the ryots larger amount. Subsequently the bills may be altered to exhibit the correct rates and some new items may be inserted to cover the difference in price already collected. This should be commented upon in Audit.
